NNSA HSPD-12/ICAM Workshop

The full agenda and presentations for the DOE/NNSA HSPD-12/ICAM Workshop have been posted to the DOE LACS Wiki, which is a collaboration site we established for the DOE LACS community. It is a Wiki on "Spaces", which is hosted by Kansas City Plant (KCP). "Spaces" and the DOE LACS Wiki requires authentication using DOE PKI certificates (support for HSPD-12 credential is coming soon). This method allows us to restrict distribution of the workshop materials to DOE federal employees and contractors. Some presentations are not yet available; therefore you may want to check the site at a later date if there is a presentation you want to see.

For those already familiar with "Spaces" and have an account established the direct link to agenda and briefings is:
https://spaces.kcp.com/display/doelacs/Conferences%2C+Workshops+and+Forums .

Note you will be redirected to an authentication page first and then you should be taken to the site… if not, click on the link again after you've authenticated.

For those of you who are new to "Spaces", you will have to register and use your DOE PKI certificates for authentication (support for HSPD-12 credential is coming soon).   The instructions are as follows:

Access the Wiki by going to: https://partners.kcp.com
Click the "Wiki on Spaces" link on the top in the left menu under Quick Links.

You will be redirected to the Entrust Sign-on pages.
Help is available by clicking the "Help" link in the top right corner, or go directly to the help pages on https://spaces.kcp.com/ka/

Once you are authenticated in the Wiki you will see the default welcome page
Access the DOE LACS page by searching (in the top right corner) or scroll down and in the left box under "More Content Areas" Click the link for "HSPD-12 LACS Team"
To get to the DOE LACS page directly, click
https://spaces.kcp.com/display/doelacs/Home (if you haven't authenticated, you'll be redirected to authenticate then you should be taken directly to the site… if not, click on the link again after you've authenticated.

You can find out more about receiving updates on the Wiki, editing pages, comments, and uploading attachments on the Guides at
